"Antiquity into the modern era"

In the 19th Century, if someone stole your wife, girlfriend or a couple of your sheep you would challenge them to a duel, at dawn.

Now in the 21st century the @ symbol represents the keystroke that enables immediate faceless communication with friend or foe, anywhere in the world while still remaining smiling. And those who desire a Summer holiday far from the maddening crowds will come to realise that, having endured the torturous highway to the secluded beaches of Gisborne, allows the unique opportunity to view the dawn of each new day well before anyone else. Literally, on the front porch of New Zealand.

2011 Sparkling Muskats @ Dawn is a collaboration between Kate Sylvester and The Millton Vineyard, this limited edition Sparkling Muskats @ Dawn label features an exclusive Kate Sylvester print.
